EXPERIENCE

Front-end Developer- Trainee

Integrify (Helsinki) Nov 2019 – Continue

I have been working as a front-end web developer (trainee) at Integrify and involving with different projects with multicultural teams, whereas I am concentrating on latest front-end technology includes HTML, CSS, JavaScript and React. Along with that I am contributing to help other developers regarding the value of UX and design process.

UI/UX Designer and Developer

Cesim Oy (Helsinki) June 2018 – Dec 2018

Introduce delightful user experience with appalling UI/visual design for both web and mobile platform using Adobe XD. I also implement the design using HTML, CSS, SCSS and JavaScript to develop interactive user interface that support wide range of devices and most common browsers for Cesim business simulations.

UI Designer

Kite Games Studio Ltd (Dhaka) Jan 2017 – July 2017

I involved all phases of product development from high-level vision to implementation that includes, concept creation, wireframing, prototyping, UI/visual design, app icon and design specification. I designed and deployed 6 iOS applications in the Appstore.

UX Designer and Front-end Developer

Nuspay International (Dhaka) July 2014 – Dec 2016

I worked with wide range of fintech web and mobile applications whereas, I create wireframes, UI design, prototyping, website design, branding and front-end development for payment getaway.

Graphic Designer

Avery Dennison Bangladesh Ltd (Dhaka) Dec 2010 - July 2013

Design hand tags for the garments products for diverse clients such as Walmart, H&M, C&A and make ready for the final production in HP indigo printing press.
